On March 15, 2012, the Company entered into a Deed of Exchange of Convertible Subordinated Debentures for Common Shares of MSCI with the holders of the Company's CSDs as full payment of all principal and accrued interest up to March 15, 2012. Other than this, there are no events that will trigger direct or contingent financial obligation that is material to the Company, including any default or acceleration of an obligation.

Management discloses other than already discussed above and information detailed on the recent annual audited financial statements that are no other:

1. Known trends, demand, commitments, events or uncertainties that will have material impact on the Company's liquidity;

### **Plan of Operations**

As of June 30, 2016, the Company has yet to identify a feasible investment opportunity.
